

## Q10

Where should I inquire if there's an awful smell coming from the public sewage inlet in the street or manhole, or if the public stormwater inlet in the street is clogged?

## A10

Please contact your local Sewerage Office.

The wastewater from underground holding tanks (building cesspits) can cause foul odors. If any unpleasant smells start coming from the public inlets or manholes in the road, please contact your local Sewerage Office (See the back cover). If you see any trouble related to the public stormwater inlets in your street, contact the roadway's management staff (for ward-owned roads, contact the ward office).

### How foul odors occur
